

PEDRO SOARES

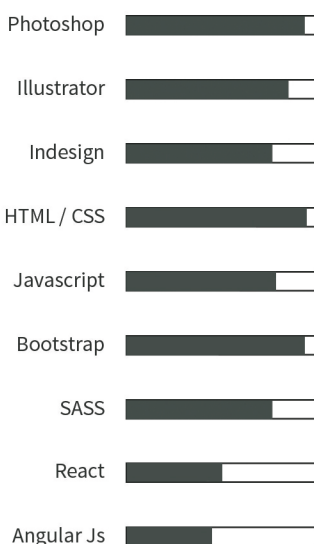

Front End Developer

Profile

I am a Porto based Web Developer.

I started my career as a Fashion Designer graduated from the design college ESAD. After my graduation I moved to the web design side and programming and haven't stopped ever since. I lived abroad in Barcelona, Spain and Athens, Greece where I had the opportunity to work and continue my studies in the area. I self-taught myself a lot of programming and continue to learn on a daily basis, as I am now enrolled in a Deep Learning Nanodegree from Udacity. I hope to continue to grow my knowledge in this area and work with other passionate individuals.
